Education: MERN Stack Coding Bootcamp, University of Washington
A 12 week intensive course focused on learning current front- and back-end technologies for full stack development.

Major: Bachelor of Arts in Political Science, University of Washington

Minors: Geography | Mathematics | Law, Societies, and Justice

Experience: On-Call Residential Counselor, Downtown Emergency Service Center

6 February 2015 – Current

Dedicated front-facing social worker with the mentally ill and chronically homeless. Created new documents for better records keeping and workflow, and trained employees at multiple housing locations on how to use various electronic systems, including security cameras, printers/faxes, and repairing network issues.

Administrative Clerk, W.G. Clark Construction

22 August 2013 – 15 August 2014

Responsible for transferring paper records to a new electronic archival system. Prioritized accurate, efficient data tagging.
